AMERICAN JOURNAL OF

DISEASES OF CHILDREN

VOLUME 104

JULY THROUGH DECEMBER, 1962

AMERICAN MEDICAL ASSOCIATION Publication

AUTHOR AND TITLE INDEX TO VOLUME 104

In this Index in alphabetical order are the names of the authors of all articles, followed by the title of the article or case presented and the page numbers on which their articles or cases begin. The asterisk (*) preceding the page number indicates an original article, case report, review article, or special article. Page numbers in the Index refer to bold face (dark) page numbers in the text.

For Subject Index see page [182-**708**].

A

Aballi, A. J., and de Lamerens, S.: Hemorrhagic disease of newborn: two forms with different hemostatic defects, 475 (N)

Abelow, I. J.: See Streamer, C. W., jt. auth.

Abildgaard, C.; Cornet, J.; Johnson, H., and Schulman, I.: In vivo longevity of antihemophilic factor, 536 (N)

Adams, P., Jr.: See Benton, J. W., Jr., jt. auth.

Ainger, L. E.: Infradiaphragmatic anomalous pulmonary venous connection: report of unusual case, *662 (D)

Alcalde, V. M.; Traisman, H. S., and Baffes, T.: Primary carcinoma of liver in infancy and childhood, *245 (S)

Allen, R. J.: Neurological abnormalities in phenylketonuria biochemically unrelated to phenylalanine intoxication, 487 (N)

Altman, D.; Shaver, W., and Viamonte, M., Jr.: Lymphangiography in children, *335 (O)

Amer, J.; Ott, E. W.; Ibbott, F. H.; O'Brien, D., and Kempe, C. H.: Effect of γ-globulin administration on morbidity from infection in premature infants during first year of life, 492 (N)

Anderson, R. C.: See Benton, J. W., Jr., jt. auth.

Apgar, V., and James, L. S.: Further observations on newborn scoring system, *419 (O)

Arcasoy, M. M.; Guntheroth, W. G.; and Mullins, G. L.: Simplified intravascular hydrogen electrode method, *349 (O)

Arcomano, J. P.; Sengstacken, R. L., and Winderlich, H. O.: Diastematomyelia, *393 (O)

Avery, M. E.; Chernick, V., and Borkowf, S.: Chemoreceptor sensitivity to inspired carbon dioxide in newborn infants, 518 (N)

Aygen, M. M.: See Goldblatt, A., jt. auth.

B

Baffes, T.: See Alcalde, V. M., jt. auth.

Barness, L. A.: See Mellman, W. J., jt. auth.

Barnett, H. L.: See Drescher, A. N., jt. auth.

Beatty, E. C., Jr.: See Gottmann, A. W., jt. auth.

Becker, A. H.: Infection due to Proteus mirabilis in newborn nursery, *355 (O)

Benbassat, M.: See Yonis, Z., jt. auth.

Benton, J. W., Jr.; Elliott, L. P.; Adams, P., Jr.; Anderson, R. C.; Hong, C. Y., and Lester, R. G.: Pulmonary atresia and stenosis with intact ventricular septum, *161 (Ag)

Bergman, A. B., and Haggerty, R. J.: Emergency clinic: study of its role in teaching hospital, *36 (Jl)

Blanc, W. A., and Silver, L. A.: Intrauterine abdominal surgery in rabbit fetus: production of congenital intestinal atresia, 548 (N)

Bommer, W.: Pneumocystis carinii from human lungs under electron microscope, *657 (D)

Borges, W. H.: See Kim, J., jt. auth.

See Pitcavage, J., jt. auth.

Bower, B. D.; Pantelakis, S., and Jones, D.: Convulsions and television viewing, 515 (N)

Brandstrup, N. E., and Kretchmer, N.: Glycogen and related enzymes in lungs during fetal life, 546 (N)

Braunwald, E.: See Goldblatt, A., jt. auth.

Breg, W. R.; Cornwell, J. G., and Miller, O. J.: Association of triple-X syndrome and mongolism in two families, 534 (N)

Brent, R. L., and Ziegra, S. R.: Effect of teratogenic kidney antibody on placenta grown in tissue culture, 541 (N)

Bolden, B. T., and Franklin, J. B.: Evaluation of teratogenic agents by means of uterine vascular clamping technique, 464 (N)

Buetow, K. C.; Cheung, C.-S., and Finberg, L.: Prolonged use of oral neomycin in premature infants, *252 (S)

Butterfield, J.; O'Brien, D., and Lubchenco, L. O.: Respiratory distress syndrome in premature infants: evaluation of early feeding of glucose water, *230 (S)

C

Cann, H. M., and Herzenberg, L. A.: In vitro selection for isoantigenic variants of mammalian somatic cells, 533 (N)

Casper, J.: See **Yonis, Z.,** jt. auth.

Catz, C., and Yaffe, S. J.: Pharmacological modification of bilirubin conjugation in newborn, 516 (N)

Chandler, R. W.; Blizzard, R. M.; Huang, W., and Kyle, M.: Incidence of thyrocytoxic factors and other antithyroid antibodies in mothers of cretins, 514 (N)

Char, D. F. B., and Kelley, V. C.: Insulin in blood (editorial), 210 (S)

Cheek, D. B.; Peterson, R. E., and Holt, A. B.: Effect of d-, dl-, and l-aldosterone, various steroids, and urine aldosterone on total body electrolyte of young mice receiving saline loads, 528 (N)

Cheung, C.-S.: See **Buetow, K. C.,** jt. auth.

Chu, E. H. Y.: See **Warkany, J.,** jt. auth.

Clapp, W. M.; Holmes, J., and O'Brien, D.: Extracorporeal hemodialysis in children, *45 (Jl)

Clyde, W. A., Jr., and Denny, F. W., Jr.: Studies on Eaton's agent in tissue culture, 558 (N)

Cohlan, S. Q.; Bevelander, G., and Tiomsic, T.: Growth inhibition of developing skeleton due to tetracycline deposition in bone: clinical and laboratory investigation, 480 (N)

Colle, E., and Ulstrom, R. A.: Symptomatic hypoglycemia with ketosis, 505 (N)

Cooper, M. L.; Keller, H. M.; Partin, J. S., and Wegman, J. C.: Nasopharyngeal carriers of Staphylococcus aureus: effect of neomycin-gramicidin nasal spray on isolation of "potentially" epidemic phage types, *53 (Jl)

Craig, J. M.: Localization of ferritin in tissues of newborns by immunofluorescent techniques, 552 (N)

Cramblett, H. G.: See **Moffet, H. L.,** jt. auth.

Crawford, J. D.: See **Kearsley, R.,** jt. auth.

and **Frost, L. R.:** Study of interphase in experimental hypothalamic diabetes insipidus, 483 (N)

D

Daugherty, S. C.: See **Lepow, M. L.,** jt. auth.

Dittes, W. L.: See **Washburn, A. H.,** jt. auth.

Drescher, A. N.; Barnett, H. L., and Troupkou, V.: Water balance in infants during water deprivation: effects of protein content of diet on renal water requirements, *366 (O)

Dwork, K. G.: See **Einhorn, A.,** jt. auth.

E

Einhorn, A.; Fritsch, A.; Dwork, K. G., and Shookhoff, H. B.: Schistosoma mansoni infection in children: treatment with lucanthone hydrochloride (Nilodin), *30 (Jl)

Eitzman, D. V.: Tolerance of soluble antigens in newborn primates, 547 (N)

Elliott, L. P.: See **Benton, J. W., Jr.,** jt. auth.

Ely, R. S.: See **Hughes, E. R.,** jt. auth.

Eyal, Z.: See **Schwartz, A.,** jt. auth.

F

Ferguson, A. D.: See **Scott, R. B.,** jt. auth.

Feuerstein, R. C., and Mims, L. C.: Linear nevus sebaceus with convulsions and mental retardation, *675 (D)

Finberg, L.: See **Buetow, K. C.,** jt. auth.

Fink, C. W.; Jasin, H., and Ziff, M.: Growth and urinary hydroxyproline excretion, 562 (N)

Fisher, D. A.; Oddie, T. H., and Burroughs, J. C.: Neonatal thyroidal hyperactivity, 529 (N)

Flock, E. V.: See **Stickler, G. B.,** jt. auth.

Florman, A. L.; Ainbender, E.; Zepp, H.; Scoma, J. L., and Hodes, H. L.: Early enhanced resistance of mice and rabbits to bacterial and viral infections after injection of staphylococcal extract, 460 (N)

Forbes, G. B.: In vitro and in vivo observations on interferon production by leukocytes, 557 (N)

Forfar, J. O.: Pediatrics in America—impressions of visit (editorial), 1 (Jl)

Fowler, W. M., Jr.; Kavan, E. M., and Walter, R. D.: Open-heart surgery: neurologic findings and electroencephalographic patterns before, during, and after open-heart surgery (two-year follow-up), *131 (Ag)

Freeman, G. L., and Todd, R. H.: Role of allergy in viral respiratory tract infections, *330 (O)

Fritsch, A.: See Einhorn, A., jt. auth.

G

Gajdusek, D. C.: Spectrum of congenital defect in melanesian populations suffering from hyperendemic goitrous cretinism in Western Papua, 553 (N)

Gans, I. H., and Ulstrom, R. A.: Corticotropin production response to methopyrapone: response in children to adrenal blocking agent methopyrapone (SU 4885), *258 (S)

Gans, S. L., and Rubin, C. L.: Apparent female infants with hernias and testes, *82 (Jl)

Garell, D.: Metabolic defects associated with mental retardation (seminar), *401 (O)

Garty, R.: See Yonis, Z., jt. auth.

Girdany, B. R.: Television tape recording of fluoroscopic image, 497 (N)

Gitlin, D.; Rosen, F. S.; Michaels, J. G., and Janeway, C. A.: Transient dysgammaglobulinemia of newborn: 19S γ_1 globulin deficiency in neonate and its significance, 491 (N)

Glaser, R. J.: See Streamer, C. W., jt. auth.

Glasgow, L. A., and Habel, K.: In vitro and in vivo observations on interferon production by leukocytes, 557 (N)

Gluck, L., and Kulovich, M.: RNA and sequence of differentiation in embryonic cells, 549 (N)

Goldblatt, A.; Aygen, M. M., and Braunwald, E.: Hemodynamic-phonocardiographic correlations of fourth heart sound in aortic stenosis, 523 (N)

Gonzaga, A. J.: See Mortimer, E. A., Jr., jt. auth.

Goodheart, C. R.: See McAllister, R. M., jt. auth.

Gottmann, A. W., and Beatty, E. C., Jr.: Cytomegalic inclusion disease in children with leukemia or lymphosarcoma, *180 (Ag)

Gribetz, D.; Mautner, W.; Cohen, S.; Kohn, J. A.; Churg, J., and Grisham, E.: Renal biopsy as aid to diagnosis and treatment of kidney disease in children, 550 (N)

Gryboski, J. D.; Gabrielson, I. W., and Spiro, H. M.: Lactosuria and sucrosuria in relation to gastrointestinal disease, 543 (N)

Guntheroth, W. G.: See Arcasoy, M. M., jt. auth.

H

Hadawi, S.: See Steiner, M. M., jt. auth.

Haessler, H. A., and Isselbacher, K. J.: Glycerol metabolism in intestinal mucosa and its role in fat absorption, 543 (N)

Hagberg, B.; Sourander, P., and Svennerholm, L.: Sulfatide lipidosis in childhood: report of case investigated during life and at autopsy, *644 (D)

Haggerty, R. J.: See Bergman, A. B., jt. auth.

Hallenbeck, G. A.: See Stickler, G. B., jt. auth.

SUBJECT INDEX TO VOLUME 104

The following Index is an alphabetical list of significant subjects presented in this volume, followed by page number and month of presentation. The asterisk (*) preceding the page number indicates an original article, case report, review article, special article, or scientific exhibit. Books reviewed are listed alphabetically by title under the heading "Books." Society Transactions are listed under that heading, with individual papers indexed under appropriate headings. Page numbers in the Index refer to bold face (dark) numbers in the text.

A

Abdomen
- "football sign" in neonatal perforated viscus [Miller], 311 (S)
- surgery, abdominal, in rabbit fetus: intrauterine [Blanc & Silver], 548 (N)

Abscess
- nontuberculous spinal epidural: in 5-week-old infant [Miller & Hesch], *269 (S)

Acetoacetate
- utilization of, by brain homogenate [Renuart & Sidbury], 506 (N)

Acid-base balance
- evolution of right-to-left shunt and, in newborn infants with respiratory distress [Prod'hom et al.], 465 (N)
- lung and, in newborn infants [Tooley et al], 520 (N)
- relationships of pO_2, pCO_2, and pH to onset of breathing [Harned et al.], 517 (N)
- simplified intravascular hydrogen electrode method [Arcasoy et al.], *349 (O)

Acidosis
- symptomatic hypoglycemia with ketosis [Colle & Ulstrom], 505 (N)

Adipose tissue
- subcutaneous adipose derangements of newborn [Marks], *122 (Ag)

Adrenal cortex
- effects of: amino acids and proteins synthesis [Kaplan & Shimizu], 545 (N)
- septicemic adrenal hemorrhage [Margaretten et al.], 521 (N)

Adrenal cortex hormones
- plasma adrenocortical hormones in connective tissue diseases [Hughes et al.], *610 (D)

Adrenal glands
- response in children to adrenal blocking agent methopyrapone (SU 4885) [Gans & Ulstrom], *258 (S)

Aging
- age influence upon response of newborns to attenuated polioviruses [Warren et al.], 542 (N)
- "H-reflexes" in normal infants: effect of age on these EIR's [Hodes & Gribetz], 409 (N)

Aging—continued
- pulmonary pathology and age influence on myocardial glycogen concentration and phosphorylase activity [Wittels et al.], 507 (N)

Aldosterone
- effect of d-, dl-, an 1-, and urine, on total body electrolytes of mice receiving saline loads [Cheek et al.], 528 (N)

Allergy
- chemical mediators of acute allergic reaction [Logan], *185 (Ag)
- role in viral respiratory tract infections [Freeman & Todd], * 330 (O)

America
- pediatrics in: impressions of visit (editorial) [Forfar], 1 (Jl)

American Board of Pediatrics, Inc.
- diplomates certified by, 99 (Jl) 206 (Ag), 430 (O)
- special non-resident certificates, 431

American Medical Association
- current movie film catalogs available, 585 (N)

American Pediatric Association
- presidential address, 72nd annual meeting: modern material medica [Wilkins], *449 (N)
- transactions of 72nd annual meeting: abstracts, 457-498 (N)

Amino acids
- in urine: rapid quantitative measurement of [Mabry & Todd], 550 (N)
- mental retardation in monkeys: branched-chain amino-aciduria and ketoaciduria [Waisman et al.], 488 (N)
- metabolism of, in cerebro-oculo-renal syndrome [Schwartz et al.], 484 (N)
- synthesis: effects of adrenal cortex [Kaplan & Shimizu], 545 (N)
- synthesis of, under possible primitive earth conditions [Lowe & Rees] 504 (N)

Anemia
- aplastic, secondary to anticonvulsants [Robins], *614 (D)
- hemolytic: syndrome of thrombocytopenia, uremia, and [Rosenthal et al.], 473 (N)
- thalassemia major (Mediterranean or Cooley's anemia) [Scott et al.], *74 (Jl)

ANNOUNCEMENTS, 100 (Jl), 206 (Ag), 324 (S), 430 (O), 585 (N)

Antibiotics
binding and inactivation of, by DNA in pulmonary excretions [Potter et al.], 539 (N)

Anticonvulsants
aplastic anemia secondary to [Robins], *614 (D)

Antigen-antibody reactions
antipoliovirus factors in human milk different from neutralizing or retarding antibody [Hodes et al.], 457 (N)
chemical mediators of acute allergic reaction [Logan], *185 (Ag)
identification of group A streptococci: fluorescent antibody technique [Streamer et al.], *157 (Ag)
in vitro selection for isoantigenic variants of mammalian somatic cells [Cann & Herzenberg], 533 (N)
serum antibodies in staphylococcal disease [Quie], 539 (N)
teratogenic kidney antibody effect on placenta growth in tissue culture [Bent & Ziegra], 541 (N)
thyrocytotoxic factor and other antithyroid antibodies in mothers of cretins [Chandler et al.], 514 (N)
tolerance of soluble antigens in newborn primates [Eitzman], 547 (N)

Aorta
physiological effects of controlled experimental aortopulmonary communications [Scarpelli et al.], 524 (N)

Aortic stenosis
hemodynamic-phonocardiographic correlations of fourth heart sound in [Goldblatt et al.], 523 (N)

Apgar score
further observations on newborn scoring system [Apgar & James], *419 (O)

APPARATUS AND INSTRUMENTS
Apgar score: further observations on newborn scoring system [Apgar & James], *419 (O)
Cuvette electrode assembly: relationships of pO_2, pCO_2, and pH to onset of breathing as studied by [Harned et al.], 517 (N)
oxygenator, pumpless: small volume, as lung substitute [Rashkind et al.], 527 (N)
television tape recording of fluoroscopic image [Girdany], 497 (N)

APPOINTMENTS
Aldrich, Robert A., 696 (D)
Robertson, William O., 696 (D)

Atmosphere
nonthermal effect of atmospheric humidity on survival of premature infants [Silverman et al.], 477 (N)

Autopsy
sulfatide lipidosis in childhood investigated at [Hagberg et al.], *644 (D)

AWARDS
John Howland Medal and Award of American Pediatric Society: acceptance of [Stokes], *443 (N)
John Howland Medal and Award of American Pediatric Society to Dr. Joseph Stokes, Jr., *440 (N)
Society for Research in Child Development: award for meritorious monograph, 206 (Ag)

B

Bacitracin
identification of group A streptococci: bacitracin disc technique [Streamer et al.], *157 (Ag)

Bacteria
infections, bacterial, after injection of staphylococcal extract: early enhanced resistance to [Florman et al.], 460 (N)

Behavior
child, and psychologic environment [Kearsley et al.], *12 (Jl)

Bilirubin
pharmacological modification of, conjugation in newborn [Catz & Yaffe], 516 (N)

Biological assay
immunological assay and characteristics of growth hormone in pituitary gland of human fetus [Kaplan & Grumbach], 528 (N)
new bioassay for growth hormone [Kogut & Kaplan], 527 (N)
simplified assay procedure for measuring and identifying substrates of steroid dehydrogenases [Sidbury et al.], 530 (N)

Biopsy
renal, as aid to diagnosis and treatment of kidney disease of children [Gribetz et al.], 550 (N)

Blood
antibodies, serum, in staphylococcal disease [Quie], 539 (N)
hemodialysis, extracorporeal, in children [Clapp et al.], *45 (Jl)
hypercalcemia, familial, of infancy associated with abnormal tryptophan metabolism [Michael et al.], 510 (N)
hypercalcemia in infancy [Michael et al.], *235 (S)
insulin in (editorial) [Char & Kelley], 210 (S)
phenylalanine, serum, levels in newborn: detection and interpretation of elevated [Howell & LaDu], 559 (N)
sodium, serum: correlation between RBC

Blood—continued
osmotic fragility and [Kim et al.], *281 (S)
sodium, serum: relation between cell water and [Pitcavage et al.], *276 (S)
structural disturbances during red cell lysis [Kochen], 537 (N)

Blood circulation
extracorporeal circulation effect upon tissue digoxin concentration [Hernandez et al.], 469 (N)
hemodynamic-phonocardiographic correlations of fourth heart sound in aortic stenosis [Goldblatt et al.], 523 (N)

Blood coagulation
iron effect on [Whitten], 538 (N)

Blue diaper syndrome
familial hypercalcemia of infancy associated with abnormal tryptophan metabolism [Michael et al.], 510 (N)

Bone and bones
growth inhibition of developing skeleton due to tetracycline deposition in bone [Cohlan et al.], 480 (N)

Books
Advances in Pediatrics [Levine, ed.], 102 (Jl), 437 (O)
Annual Review of Medicine [Rytand, ed.], 434 (O), 588 (N)
Beiträge zur Klinik und Pathogenese der Coeliakie, 326 (S)
Cardiopulmonary Data for Children and Young Adults [Cassels & Morse], 101 (Jl)
Cerebral Palsy in Childhood and Adolescence [Henderson, ed.], 103 (Jl)
Chemistry and Therapy of Behavior Disorders in Children [Freed), 103 (Jl)
Child Neurology and Cerebral Palsy [MacKeith & Bax], 204 (Ag)
Chromosomes in Medicine [Hamerton, ed.], 434 (O)
Congenital Cardiac Disease: Review of 357 Cases Studied Pathologically [Fontana & Edwards], 434 (O)
Congenital Malformations [Fishbein], 203 (Ag)
Diagnosis and Management of Pain Syndrome [Finneson], 587 (N)
Diagnostic Pratique des Cardiopathies Congenitales [Bret], 434 (O)
Diagnostic Tests in Infants and Children [Behrendt], 434 (O), 589 (N)
Diseases of Muscle: Study in Pathology [Adams et al.], 102 (Jl), 591 (N)
Dissemination of Cancer: Prevention and Therapy [Cole et al.], 102 (Jl)
Ear, Nose and Throat Diseases of Children [Birrell], 434 (O), 590 (N)
Enzymes and Drug Action [Mongar & de Reuck, ed.], 434 (O)
Essentials of Pediatric Psychiatry [Meyer et al.], 434 (O)

Books—continued
First International Conference on Congenital Malformations, 101 (Jl)
Genetics [King], 434 (O) 588 (N)
Growth and Development of Children [Watson & Lowrey], 203 (Ag)
Handicapped Children: Problems, Services in Michigan, 102 (Jl)
Health Services for Mothers and Children [Wallace], 101 (Jl), 436 (O)
Illustrated Manual of Neurologic Diagnosis [Collins], 587, 590 (N)
Interpretation of Signs and Symptoms in Different Age Periods: Pediatric Diagnosis [Green et al.], 587 (N)
Introduction to Developmental Assessment in First Year [Illingworth], 203 (Ag), 435 (O)
Juvenile Rheumatoid Arthritis [Grokoest et al.], 102, 105 (Jl)
Lehrbuch der Kinderheilkunde [Feer], 587 (N)
Liver Biopsy: Atlas of Histologic Appearances [Shorter], 106 (Jl)
Man and His Environment, 102 (Jl)
Martini's Principles and Practice of Physical Diagnosis [Kneeland & Loeb], 203, 205 (Ag)
Meeting Protein Needs of Infants and Children, 107 (Jl)
Mental Retardation (Association for Research in Nervous and Mental Disease: Vol. XXXIX) [Kolb et al., ed.], 101 (Jl), 326 (S)
One of Those Children [Neal], 326 (S) 588 (N)
Pediatric Dentistry [Cohen], 105 (Jl)
Pediatric Diagnosis: Interpretation of Signs and Symptoms in Different Age Periods [Green & Richmond], 435 (O)
Pediatric Surgery [Benson et al., ed.], 587 (N)
Pediatrics [Holt et al.], 435 (O)
Personality and Decision Processes: Studies in Social Psychology of Thinking, [Brim et al.], 587 (N)
Physiotherapy in Cerebral Palsy [Levitt], 108 (Jl)
Prenatal Influences [Montagu], 101 (Jl), 204 (Ag)
Problemes posés par 1' incompatibilité Rh foeto-maternelle [Jouvenceaux & Michaud], 203 (Ag)
Problems of Blood Pressure in Childhood [Moss & Adams], 102 (Jl), 435 (O)
Proceedings of First International Congress of Nephrology [Richet, ed.], 110 (Jl)
Proceedings: Regional Institute on Neurologically Handicapping Conditions in Children, 587 (N)
Le Psychodrame chez l'enfant [Widlöcher], 587 (N)
Psychological Development in Health and Disease [Engel], 435 (O)

BOOKS—continued
Radiographic Atlas of Skeletal Development of Foot and Ankle [Hoerr et al.], 101, 106 (Jl)
Reading Disability: Progress and Research Needs in Dyslexia [Money, ed.], 587 (N)
Science of Physical Education for Handicapped Children [Mathews et al.], 203 (Ag)
Stages of Human Development Before Birth: Introduction to Human Embryology [Blechschmidt], 437 (O)
Study of Influenza [Zhdanov et al.], 101 (Jl)
Study of Psychophysical Methods for Relief of Childbirth Pain [Buxton], 326 (S)
Surgery of Ambulatory Child [Redo], 102, 109 (Jl)
Synopsis of Children's Diseases [Rendle-Short], 108 (Jl)
Techniques for Measuring Body Composition [Brozek & Hanschel], 102 (Jl), 205 (Ag)
Textbook of Endocrinology [Williams, ed.], 101 (Jl), 436 (O)
Textbook of Obstetrics [Reid], 103 (Jl)
Trasposizione dei Grossi Vasi: Studio Radiologico [Fossati et al.], 326 (S)
Treatment of Child in Emotional Conflict [Lippman, ed.], 102, 108 (Jl)
Year Book of Pediatrics: 1961-1962 Series [Gellis, ed.], 104 (Jl)

Boston City Hospital
pyelonephritis in infants and children: autopsy experiences at, 1933-1960 [Neumann & Pryles], *215 (S)

Brain
congenital defect associated with 13-15 trisomy [Miller et al.], 532 (N)
homogenate: utilization of acetoacetate by [Renuart & Sidbury], 506 (N)
ornithine and other amino acids metabolism in cerebro-oculo-renal syndrome [Schwartz et al.], 484 (N)

C

Calcium
hypercalcemia: See Blood, hypercalcemia
infusion and renal biopsy studies in refractory rickets: results of [Nigrin et al.], 478 (N)

Cancer
and viruses [McAllister & Goodheart], *87 (Jl)

Carbon dioxide
chemoreceptor sensitivity to inspired, in newborns [Avery et al.], 518 (N)

Carcinoma
liver: primary, of, in infancy and childhood [Alcalde et al.], *245 (S)

Cardiovascular system
adjustments in normal newborn lambs [Stahlman et al.], *360 (O)

Catecholamines: See also Epinephrine
diarrhea and, in ganglioneuroblastoma [Stickler et al.], *598 (D)

Caucasians
biochemical difference between Negroes and [Oski et al.], 565 (N)

Chickenpox
congenital varicella [O'Neil], *391 (O)

Child guidance: See under Psychology

Chloroma
or granuloma [Washburn & Dittes], *302 (S)

Choline
dietary, effect: hepatolipohyperplasia in weaning period [Hartroft], 551 (N)

Chromosomes
abnormality with centric fragment in paramongoloid child [Migeon et al.], 533 (N)
infants with trisomy 18 syndromes [Weiss et al.], 533 (N)
mosaicism, chromosomal, and male pseudohermaphroditism [Warkany et al.], *172 (Ag)
mosaicism in mother of two mongoloids [Smith et al.], 534 (N)
specific congenital defect of brain associated with 13-15 trisomy [Miller et al.], 532 (N)
triple-X syndrome and mongolism in two families: association of [Breg et al.], 534 (N)
XX/XY human hermaphrodite resulting from double fertilization [Waxman et al.], 512 (N)

Clinics
emergency clinics: its role in teaching hospital [Bergman & Haggerty], *36 (Jl)

Connective tissue
diseases: plasma adrenocortical hormones in [Hughes et al.], *610 (D)

Convulsions
linear nevus sebaceus with, and mental retardation [Feuerstein & Mims], *675 (D)
mechanism of anticonvulsant action of ketogenic diet [Rudis & Millichap], 506 (N)
television viewing and [Bower et al.], 515 (N)

Cooley's anemia: See under Anemia

CORRESPONDENCE
aegis of survey of pediatricians [Barness], 198 (Ag)
case of purple pillow case [Girsh], 198 (Ag)
difficult breathing with bulbar polio [Sweet], 583 (N)
early author comments on Reticulose [Anderson], 321 (S)

CORRESPONDENCE—continued
fluid loss in dehydration [Graham], 97; [Abrahamov], 97 (Jl)
Forfar's answered [Wolf], 584 (N)
getting more from hospital [Ashmun] 321 (S)
gismo for transillumination [Jabbour], 199 (Ag)
hand-foot syndrome in sickle-cell disease [Lambotte], 200 (Ag)
instant partial information [Katcher], 323 (S)
iodine content of mull-soy [Howard], 322 (S)
literature available on venereal disease [Brown], 97 (Jl)
more on Reticulose [Plotkin], 321 (S)
offices without computers [Missildine], 583 (N)
on coining new words [Trimble], 429 (O)
on oversimplification [Cutter], 322 (S)
pathogenesis of hydranencephaly [Hoffman], 198 (Ag)
pediatric iron preparations [Lauerhass], 201 (Ag)
streptococci, tonsils, and penicillin [Rantz], 201; [Saslaw], 202 (Ag)

Corticoids
corticosteroid levels before and after corticotropin [Hughes et al.], *605 (D)

Corticotropin
corticosteroid levels before and after [Hughes et al.], *605 (D)
production response to methopyrapone [Gans & Ulstrom], *258 (S)

Cretinism
hyperendemic goitrous, in Western Papua: congenital defect in Melanesian populations suffering from [Gajdusek], 553 (N)
thyrocytotoxic factor and other antithyroid antibodies in mothers of cretins [Chandler et al.], 514 (N)

Cuvette electrode assembly
relationships of pO_2, pCO_2, and pH to onset of breathing as studied by [Harned et al.], 517 (N)

Cystic fibrosis
chymotrypsin-like enzyme in respiratory secretions of [Lieberman & Kurnick], 526 (N)
enzymatic dissolution of pulmonary secretions: sputum from patients with, of pancreas [Lieberman], *342 (O)
mucoproteins, composition of, isolated from sweat of patients with pancreatic [Pallavicini et al.], 545 (N)
of pancreas and diabetes mellitus [Rosan et al.], *625 (D)

Cystinosis
studies in [Mahoney & Trump], 563 (N)

Cytology
foam cells: unusual storage disease resembling Hunter-Hurler syndrome [Sanfillippo et al.], 553 (N)
mammalian cells: hydrocortisone effect on incorporation of 5-iododesoxyuridine into DNA of cultured [Schafer & Gitlin], 545 (N)
somatic cells: isoantigenic variants of mammalian [Cann & Herzenberg], 533 (N)

Cytomegalic inclusion disease: See Virus diseases

D

DEATHS
Hansen, Arild, 696 (D)

Dehydrogenases
glucose-6-phosphate, deficiency: erythrocyte acid phosphomonoesterase deficiency in[Oski et al.], 565 (N)
glucose-6-phosphate: electrophoretic difference of human erythrocytic [Kirkman], 566 (N)
substrates of steroid: simplified assay procedure for measuring and identifying [Sidbury et al.], 530 (N)

Desoxyribose nucleic acid
binding and inactivation of antibiotics by DNA in pulmonary excretions [Potter et al.], 539 (N)
hydrocortisone effect on incorporation of 5-iododesoxyruidine into [Schafer & Gitlin], 545 (N)

Diabetes insipidus
interphase study in experimental hypothalamic [Crawford & Frost], 483 (N)
unidentified factor controlling water excretion in nephrogenic [Holliday & Harrah], 512 (N)

Diabetes mellitus
cystic fibrosis of pancreas and [Rosan et al.], *625 (D)

Dialysis
extracorporeal hemodialysis in children [Clapp et al.], *45 (Jl)

Diaphorase
erythrocyte, activity in newborn [Zipursky et al.], 536 (N)

Diaphram
infradiaphragmatic anomalous pulmonary venous connection [Ainger], *662 (D)

Diarrhea
catecholamines and, in ganglioneuroblastoma [Stickler et al.], *598 (D)
immunofluorescence in epidemiologic control of E. coli [Page & Stulberg], *149 (Ag)
transport of ions and oxidative phosphorylation in everted jejunal sac from

Diarrhea—continued
rats with [Marund & Metcoff], 542 (N)

Diastematomyelia
[Arcomano et al.], *393 (O)

Diet: See also Feedings
ketogenic: mechanism of anticonvulsant action of [Rudis & Millichap], 506 (N)
protein and choline, dietary, effect: hepatolipohyperplasia in weaning period [Hartroft], 551 (N)
protein content of, effect on renal water requirements [Drescher et al.], *366 (O)

Digoxin
extracorporeal circulation effect upon tissue, concentration [Hernandez et al.], 469 (N)

DNA: See Desoxyribose nucleic acid

Dura mater
nontuberculous spinal epidural abscess: in 5-week-old infant [Miller & Hesch], *269 (S)

Dysgammaglobulinemia: See under Gamma globulin

E

Eaton's agent
studies in tissue culture [Clyde & Denny], 558 (N)

Edema
nephrotic syndrome: reappraisal of pathogenesis of [Oliver], 494 (N)

EDITORIALS
he'll grow out of it [Work], 327 (O)
insulin in blood [Char & Kelley], 210 (S)
Irvine McQuarrie—essay on cultivation of academic talent [Smith], 209 (S)
mutual rights and irritations of pediatric practice, 114 (Ag)
olden, golden rule, 10 (Jl)
pediatrics in America—impressions of visit [Forfar], (Jl)
thalidomide—lesson in remote effects of drugs [Taussig], 111 (Ag)
where is our nosocomial conscience? 593 (D)

Electricity
"H-reflexes" in normal infants: effect of phenobarbital on these EIR'S [Hode & Gribetz], 490 (N)

Electroencephalography
open-heart surgery: electroencephalographic patterns [Fowler et al.], *131 (Ag)

Electrolytes: See also Ions, Water-electrolyte balance
effect of d-, dl-, and l-aldosterone, various steroids, and urine aldosterone on total body [Cheek et al.], 528 (N)

Electrophoresis
difference, electrophoretic, of human erythrocytic glucose-6-phosphate dehydrogenase [Kirkman], 566 (N)

Embryo
RNA and sequence of differentiation in embryonic cells [Gluck & Kulovich], 549 (N)

Environment
psychologic, and child behavior: study of relations between [Kearsley et al.], *12 (Jl)

Enzymes
chymotrypsin-like enzyme in respiratory secretions of cystic fibrosis [Lieberman & Kurnick], 526 (N)
dissolution, enzymatic, of pulmonary secretions [Lieberman], *342 (O)
glycogen and related, in lungs during fetal life [Brandstrup & Kretchmer], 546 (N)

Epidemiology
E. coli diarrhea: immunofluorescence in epidemiologic control of [Page & Stulberg], *149 (Ag)

Epinephrine
use of, in cardiac failure due to shunts [Rudolph et al.], 467 (N)

Erythrocytes
diaphorase activity in newborn [Zipursky et al.], 536 (N)
erythropoietic protoporphyria [Porter & Lowe], 537 (N)

Escherichia coli
immunofluorescence in epidemiologic control of [Page & Stulberg], *149 (Ag)
urinary tract infections and septicemia due to, in male infants [Kenny et al.], 461 (N)

Eye
ornithine and other amino acids metabolism in cerebro-oculo-renal syndrome [Schwartz et al.], 484 (N)

F

Fats
absorption: glycerol metabolism in intestinal mucosa and its role in [Haessler & Isselbacher], 543 (N)
hypercalcemia in infancy: associated with subcutaneous fat necrosis and calcification [Michael et al.], *235 (S)

Fatty acid
apparent inborn error of short-chain, metabolism [Sidbury et al.], 531 (N)

Feedings
glucose water: respiratory distress syndrome in premature infants [Butterfield et al.], *230 (S)

Ferritin
localization of, in tissues of newborns by immunofluorescent techniques [Craig], 552 (N)

Fertilization
XX/XY human hermaphrodite resulting from double [Waxman et al.], 512 (N)

Fetus: See also Embryo
glycogen and related enzymes in lungs during fetal life [Brandstrup & Kretchmer], 546 (N)
immunologic assay and characteristics of growth hormone in pituitary gland of human [Kaplan & Grumbach], 528 (N)
intrauterine abdominal surgery in rabbit [Blanc & Silver], 548 (N)
microdissection of human fetal kidney [Osathanondh & Potter], 547 (N)
teratogenic agents evaluation by means of uterine vascular clamping techniques [Brent et al.], 464 (N)

FILMS
Chemical Balance Through Respiration available through National Foundation, 432 (O)

Fluorescent dyes
ferritin localization in tissues of newborns by immunofluorescent techniques [Craig], 552 (N)
identification of group A streptococci: fluorescent antibody techniques [Streamer et al.], *157 (Ag)
immunofluorescence in epidemiologic control of E. coli diarrhea [Page & Stulberg], *149 (Ag)

Fluoroscopy
television tape recording of fluoroscopic image [Girdany], 497 (N)

Football sign
in neonatal perforated viscus [Miller], 311 (S)

G

Gamma globulin
administration effect on morbidity from infection in premature infants during first year [Amer et al.], 492 (N)
deficiency in neonate and its significance: 19S γ_1-globulin [Gitlin et al.], 491 (N)
site of synthesis of γ_1-macroglobulins in dysgammaglobulinemia [Rosen et al.], 523 (N)
transient dysgammaglobulinemia of new born infants [Gitlin et al.], 491 (N)

Ganglioneuroblastoma
catecholamines and diarrhea in [Stickler et al.], *598 (D)

Gastrointestinal tract
lactosuria and sucrosuria in relation to disease of [Gryboski et al.], 543 (N)

Genetics: See also Chromosomes
apparent inborn error of short-chain fatty acid metabolism [Sidbury et al.], 531 (N)
cretins: thyrocytotoxic factor and other antithyroid antibodies in mothers of (Chandler et al.], 514 (N)
isoantigenic varients of mammalian somatic cells: in vitro selection for [Cann & Herzenberg], 533 (N)
metabolism of ornithine and other aminoacids in cerebro-oculo-renal syndrome [Schwartz et al.], 484 (N)
mosaicism in mother of two mongoloids [Smith et al.], 534 (N)
triple-X syndrome and mongolism in two families: association of [Breg et al.], 534 (N)

Globulins
immunoglobulin levels in rheumatic fever [Hong et al.], 541 (N)

Glucose
early feedings of glucose water: respiratory distress syndrome in premature infants [Butterfield et al.], *230 (S)

Glycerin
glycerol metabolism in intestinal mucosa and its fat absorption [Haessler & Isselbacher], 543 (N)

Glycine
turnover rate of, pool size, and formation of serine: hyperglycinemia [Nyhan & Childs], 509 (N)

Glycogen
and related enzymes in lungs during fetal life [Brandstrup & Kretchmer], 546 (N)
myocardial, concentration: influence of age and pulmonary pathology on [Wittels et al.], 507 (N)

Granicidin
-neomycin nasal spray effect on isolation of "potentially" epidemic Staphylococcus aureus [Cooper et al.], *53 (Jl)

Granuloma
chloroma or [Washburn & Dittes], *302 (S)

Growth and development
growth and urinary hydroxyproline excretion [Fink et al.], 562 (N)
growth hormones in pituitary gland of human fetus [Kaplan & Grumbach], 528 (N)
growth hormone: new bioassay for [Kogut & Kaplan], 527 (N)
growth inhibition of developing skeleton due to tetracycline deposition in bone [Cohlan et al.], 480 (N)

Guidance, child: See under Psychology

H

Haemophilus
hemophilus influenzae meningitis [Kline], *595 (D)

Hands
of personnel: transmission of staphylococci between newborns [Mortimer et al.], *289 (S)

Heart
defects, congenital cardiac: use of isoproterenol in evaluation of [Moss & Duffie], 525 (N)
failure: epinephrine use in cardiac, due to shunts [Rudolph et al.], 467 (N)
fourth heart sound in aortic stenosis: hemodynamic-phonocardiographic correlations of [Goldblatt et al.], 523 (N)
postpericardiotomy syndrome [Hammel & Lyons], *385 (O)
pulmonary atresia and stenosis with intact ventricular septum [Benton et al.], *161 (Ag)
septal defects, ventricular: retrograde left ventriculography in study [Steinfeld et al.], 525 (N)
simplified intravascular hydrogen electrode method [Arcasoy et al], *349 (O)
surgery, open-heart [Fowler et al.], *131 (Ag)
Waring Blendor syndrome [Sigler et al.], 470 (N)

Heme
synthesis in leukemic leukocytes [Walters et al.], 535 (N)

Hemophilia
in vivo longevity of antihemophilic factor [Abildgaard et al.], 536 (N)

Hemophilus: See Haemophilus

Hemorrhage
septicemic adrenal [Margaretten et al.], 521 (N)

Hemorrhagic disease of newborn
two forms with different hemostatic defects [Aballi & de Lamerens], 475 (N)

Hemostatics
hemorrhagic disease of newborn: two forms with different hemostatic defects [Aballi & de Lamerens], 475 (N)

Hepatitis
treatment of plasma-cell, with 6-mercaptopurine [Page et al.], 540 (N)
ultrastructural studies in neonatal giant-cell [Kopel et al.], 552 (N)

Hepatolipohyperplasia
in weaning period: dietary protein and choline effect [Hartroft], 551 (N)

Hermaphroditism
apparent female infants with hernias and testes [Gans & Rubin], *82 (Jl)
male pseudohermaphroditism and chromosomal mosaicism [Warkany et al.], *172 (Ag)

Hernias
apparent female infants with testes and [Gans & Rubin], *82 (Jl)

Hormones: See also Adrenal cortex hormones
growth in pituitary gland of human fetus: immunologic assay and characteristics of [Kaplan & Grumbach], 528 (N)
growth: new bioassay for [Kogut & Kaplan], 527 (N)

Hospitals
E. coli diarrhea in children's: immunofluorescence in epidemiologic control of [Page & Stulberg], *149 (Ag)
emergency clinic: its role in teaching hospital [Bergman & Haggerty], *36 (Jl)
mentally retarded: medical problems on ward of hospital for [Wright et al.], *142 (Ag)
newborn nursery: infection due to Proteus mirabilis in [Becker], *355 (O)
personnel, hands of: transmission of staphylococci between newborns [Mortimer et al.], *289 (S)

Humidity
nonthermal effect of atmospheric humidity on survival of premature infants [Silverman et al.], 477 (N)

Hunter-Hurler syndrome
unusual storage disease resembling [Sanfilippo et al.], 553 (N)

Hyaline membrane disease
ventilation aids in [Stahlman et al.], 526 (N)

Hydrocortisone
cortisol production in newborns and infants [Kenny et al.], 529 (N)
$4C^{14}$-cortisol metabolism in neonate [Seely], 530 (N)
effect on incorporation of 5-iododesoxyuridine into deoxyribonucleic acid [Schafer & Gitlin], 545 (N)

Hydrogen ion concentration
simplified intravascular hydrogen electrode method [Arcasoy et al.], *349 (O)

Hydroxyproline: See under Proline

Hyperglycinemia
turnover rate of glycine, pool size, and formation of serine [Nyhan & Childs], 509 (N)

Hypoglycemia
fatal, in germ-free piglets [Schaffer et al.], 546 (N)
symptomatic, with ketosis [Colle & Ulstrom], 505 (N)

Hypoparathyroidism
primary, in infant [Yonis et al.], *307 (S)

Hypothalamus
diabetes insipidus, hypothalamic: interphase study in experimental [Crawford & Frost], 483 (N)

I

Immunity: See also Antigen-Antibody reactions, Vaccines
nephrotic syndrome in newborn infants: immune reaction? [Lange et al.], 496 (N)

Immunofluorescence: See Fluorescent dyes

Immunoglobulins: See under Globulins

Infants: See also Newborn infants, Premature infants
carcinoma, primary, of liver in infancy [Alcalde et al.], *245 (S)
cortisol production in [Kenny et al.], 529 (N)
hernias and testes: apparent female infants with [Gans & Rubin], *82 (Jl)
"H-reflexes" in normal [Hodes & Gribetz], 490 (N)
hypercalcemia, familial, of, associated with abnormal tryptophan metabolism [Michael et al.], 510 (N)
hypercalcemia in infancy [Michael et al.], *235 (S)
hypoparathyroidism, primary, in infant [Yonis et al.], *307 (S)
jaundice during infancy: familial obstructive [McElfresh], 531 (N)
nontuberculous spinal epidural abscess: in 5-week-old infant [Miller & Hesch], *269 (S)
pyelonephritis in [Neumann & Pryles], *215 (S)
"Schmorl lesion" in jaundiced infected [Perrin & Landing], 551 (N)
trisomy 18 syndrome: four, with [Weiss et al.], 533 (N)
urinary tract infections and septicemia due to Escherichia coli in male [Kenny et al.], 461 (N)
water balance in infants during water deprivation [Drescher et al.], *366 (O)

Influenza
hemophilus influenzae meningitis [Kline], *595 (D)
virus pericarditis [Hildebrancht], *579 (N)

Injection
Salk vaccine: serologic response to fifth [Moffet & Cramblett], 397 (O)

Insulin
in blood (editorial) [Char & Kelley], 210 (S)

Intestines
atresia, intestinal: production of congenital, by intrauterine abdominal surgery in rabbit fetus [Blanc & Silver], 548 (N)

Intestines—continued
mucosa, intestinal: glycerol metabolism in [Haessler & Isselbacher], 543 (N)
paneth cells activity in new born mice: development and modification [Selzman et al.], 549 (N)

Iododesoxyuridine
hydrocortisone effect on incorporation of 5-, into deoxyribonucleic acid [Schafer & Gitlin], 545 (N)

Ions
transport of, in everted jejunal sac from rats with diarrhea [Marund & Metcoff], 542 (N)

Iron: See also Ferritin
effect of, on blood coagulation [Whitten], 538 (N)

Isoproterenol
Isuprel use in evaluation of congenital cardiac defects [Moss & Duffie], 525 (N)

Isotopes: See Radioisotopes

Isuprel: See Isoproterenol

J

Jaundice: See under Liver

Jejunum
transport of ions and oxidative phosphorylation in everted jejunal sac from rats with diarrhea [Marund & Metcoff], 542 (N)

John Howland Medal and Award: See under AWARDS

K

Keto acids
branched-chain amino-aciduria and keto-aciduria: mental retardation in monkeys [Waisman et al.], 488 (N)

Ketones
mechanism of anticonvulsant action of ketogenic diet [Rudis & Millichap], 506 (N)

Ketosis: See Acidosis

Kidneys
antibody, teratogenic kidney, effect on placenta growth in tissue culture [Brent & Ziegra], 541 (N)
artificial: extracorporeal hemodialysis in children [Clapp et al.], *45 (Jl)
biopsy studies, renal, in refractory rickets: results of calcium infusion and [Nigrin et al.], 478 (N)
diabetes insipidus, nephrogenic: unidentified factor controlling water excretion in [Holliday & Harrah], 512 (N)
disease: renal biopsy as aid to diagnosis and treatment of, in children [Gribetz et al.], 550 (N)

Kidneys—continued
metabolism of ornithine and other amino acids in cerebro-oculo-renal syndrome [Schwartz et al.], 484 (N)
microdissection of human fetal [Osathanondh & Potter], 547 (N)
nephrosis: immunological studies on [Kouvalainen], 554 (N)
sodium transport in inner medulla of [Kean et al.], 544 (N)
water requirements: effects of protein content of diet on renal [Drescher et al], *366 (O)

L

Lactose
lactosurea in relation to gastrointestinal disease [Gryboski et al.], 543 (N)

Lancefield precipitin test: See under Precipitins

Leukemia
cytomegalic inclusion disease in children with [Gottman & Beatty], *180 (Ag)
heme synthesis in leukemic leukocytes [Walters et al.], 535 (N)
leukocyte kinetics in acute [Mauer & Fisher], 535 (N)
unusual components in RNA preparations of leukemic white cells [Karon et al.], 536 (N)

Leukocytes
heme synthesis in leukemic [Walters et al.], 535 (N)
interferon production by [Glasgow & Habel], 557 (N)
kinetics in acute leukemia [Mauer & Fisher], 535 (N)

Leukopenia
fatal reaction to sulfadimethoxine: case showing [Jarkowski & Martmer], *669 (D)

Lipidosis: See Lipoidosis

Lipids
storage disorders of central nervous system (seminar) [Leistyna], *680 (D)

Lipoidosis
sulfatide lipidosis in childhood [Hagberg et al.], *644 (D)

Liver
carcinoma, primary, of, in infancy and childhood [Alcalde et al.], *245 (S)
function tests, abnormal: cytomegaloviruses in urine of children with hepatomegaly and [Hamshaw & Simon], 555 (N)
hepatolipohyperplasia in weaning period [Hartroft], 551 (N)
jaundice during infancy: familial obstructive [McElfresh], 531 (N)
jaundiced infected infants: "Schmorl lesion" in [Perrin & Landing], 551 (N)

Lucanthone hydrochloride
Schistosoma masoni infection in children: treatment with (Nilodin) [Einhorn et al.], *30 (Jl)

Lungs
acid-base balance and, in newborn [Tooley et al.], 520 (N)
atresia and stenosis, pulmonary, with intact ventricular septum [Benton et al.], *161 (Ag)
chymotrypsin-like enzyme in respiratory secretions of cystic fibrosis [Lieberman & Kurnick], 526 (N)
excretions, pulmonary: binding and inactivation of antibiotics by DNA in [Potter et al.], 539 (N)
glycogen and related enzymes in, during fetal life [Brandstrup & Kretchmer], 546 (N)
pathology, pulmonary, influence on myocardial glycogen concentration and phosphorylase activity [Wittels et al.], 507 (N)
physiological effects of controlled experimental aortopulmonary communications [Scarpelli et al.], 524 (N)
pneumocystis carinii from human, under electron microscope [Bommer], *657 (D)
respiratory distress syndrome in premature infants [Butterfield et al.], *230 (S)
right-to-left shunt and acid-base balance in newborn infants with respiratory distress [Prod'hom et al.], 465 (N)
secretions: enzymatic dissolution of pulmonary [Lieberman], *342 (O)
substitute: small volume, pumpless oxygenator as [Rashkind et al.], 527 (N)
venous admixture, pulmonary, component in patients with large volume left-to-right communications [Talner et al.], 524 (N)
venous connection: infradiaphragmatic anomalous pulmonary [Ainger], *662 (D)
ventilatory aids in hyaline membrane disease [Stahlman et al.], 526 (N)

Lymph nodes
lymphangiography in children [Altman et al.], *335 (O)

Lymphosarcoma
cytomegalic inclusion disease in children with [Gottman & Beatty], *180 (Ag)

M

Mandribon: See Sulfadimethoxine

McQuarrie, Irvine
essay on cultivation of academic talent (editorial) [Smith], 209 (S)

Medical education
emergency clinic: its role in teaching hospital [Bergman & Haggerty], *36 (Jl)

Mediterranean anemia: See under Anemia

Melanesian populations
suffering from hyperendemic goitrous cretinism in Western Papula: congenital defect in [Gajdusek], 553 (N)

Meningitis
hemophilus influenzae: is prophylaxis indicated? [Kline], *595 (D)

Mental deficiency
linear nevus sebaceus with convulsions and mental retardation [Feuerstein & Mims], *675 (D)
medical problems on ward of hospital for mentally retarded [Wright et al.], *142 (Ag)
metabolic defects associated with mental retardation (seminar) [Garell], *401 (O)
monkeys, mental retardation in: branched-chain amino-aciduria and ketoaciduria [Waisman et al.], 488 (N)

Mercaptopurine
6-: treatment of plasma-cell hepatitis with [Page et al.], 540 (N)

Metabolism
defects, metabolic, associated with mental retardation (seminar) [Garell], *401 (O)

Methopyrapone
corticotropin production response to: response in children to adrenal blocking agent (SU 4885) [Gans & Ulstrom], *258 (S)

Microscopy, electron
pneumocystis carinii from human lungs under electron microscope [Bommer], *657 (D)

Milk
human: antipoliovirus factors in, different from neutralizing or retarding antibody [Hodes et al.], 457 (N)

Mongolism
association of triple-X syndrome and, in two families [Breg et al.], 534 (N)
chromosome abnormality with centric fragment in paramongoloid child [Migeon et al.], 533 (N)
mosaicism in mother of two mongoloids [Smith et al.], 534 (N)

Morbidity
gamma globulin administration effect on, from infection in premature infants during first year [Amer et al.], 492 (N)

Mucoproteins
composition of, isolated from sweat of patients with cystic fibrosis of pancreas [Pallavicini et al.), 545 (N)

Mycobacteria
unclassified: cause of nonspecific tuberculin reactions? [Mellman & Barness], *21 (Jl)

Myocardium
glycogen concentrations, myocardial: influence of age and pulmonary pathology on [Wittels et al.], 507 (N)

N

Nasopharynx
carriers of Staphylococcus aureus: nasopharyngeal [Cooper et al.], *53 (Jl)

Negroes
biochemical difference between Caucasians and [Oski et al.], 565 (N)
thalassemia major (Mediterranean or Cooley's anemia): in Negro children [Scott et al.], *74 (Jl)

Neomycin
-granicidin nasal spray effect on isolation of "potentially" epidemic Staphylococcus aureus [Cooper et al.], *53 (Jl)
prolonged use of oral, in premature infants [Buetow et al.], *252 (S)

Nephrosis
immunological studies on [Kouvalainen], 554 (N)

Nephrotic syndrome
in newborn infant: immune reaction? [Lange et al.], 496 (N)
reappraisal for pathogenesis of edema of [Oliver], 494 (N)

Nervous system
central: lipid storage disorders of (seminar) [Leistyna], *680 (D)

Neurology
abnormalities, neurological in phenylketonuria biochemically unrelated to phenylalanine intoxication [Allen], 487 (N)
open-heart surgery: neurological findings [Fowler et al.], *131 (Ag)

Nevus
linear nevus sebaceus with convulsions and mental retardation [Feuerstein & Mims], *675 (D)

Newborn infants: See also Premature infants
bilirubin conjugation in: pharmacological modification of [Catz & Yaffe], 516 (N)
cardiovascular adjustments in normal newborn lambs [Stahlman et al.], *360 (O)
chemoreceptor sensitivity to inspired carbon dioxide in [Avery et al.], 518 (N)
$4C^{14}$-cortisol metabolism in neonate [Seely], 530 (N)
cortisol production in [Kenny et al.], 529 (N)
dysgammaglobulinemia, transient, of [Gitlin et al.], 491 (N)

Newborn infants—continued
elevated serum phenylalaine levels in: diagnosis of phenylketonuria [Howell & LaDu], 559 (N)
environmental temperature and 15% oxygen effects in inspired air on gaseous metabolism of [Oliver & Karlberg], 548 (N)
erythrocyte diaphorase activity in [Zipursky et al.], 536 (N)
ferritin localization in tissues of newborns by immunofluorescent techniques [Craig], 552 (N)
"football sign" in neonatal perforated viscus [Miller], 311 (S)
hemorrhagic disease of [Aballi & de Lamerens], 475 (N)
hepatitis, giant-cell: ultrastructural studies in neonatal [Kopal et al.], 552 (N)
hypoglycemia, fatal, in germ-free piglets [Schaffer et al.], 546 (N)
infection due to Proteus mirabilis in newborn nursery [Becker], *355 (O)
lung and acid-base balance in [Tooley et al.], 520 (N)
nephrotic syndrome in: immune reaction? [Lange et al.], 496 (N)
paneth cell activity in newborn mice: development and modification [Selzman et al.], 549 (D)
polioviruses: influence of age upon response of, to attenuated [Warren et al.], 542 (N)
right-to-left shunt and acid-base balance in, with respiratory distress [Prod'hom et al.], 465 (N)
Sabin Type I (LSc2ab) oral poliomyelitis vaccine: effect on dose upon response of [Lepow et al.], *67 (Jl)
scoring system: further observations on newborn [Apgar & James], *419 (O)
staphylococci between: routes of transmission [Mortimer et al.], 540 (N)
staphylococci, transmission of, between: [Mortimer et al.], *289 (S)
subcutaneous adipose derangements of [Marks] *122 (Ag)
thyroidal hyperactivity, neonatal [Fisher et al.], 529 (N)
tolerance of soluble antigens in newborn primates [Eitzman], 547 (N)

News and Comment, 99 (Jl), 206 (Ag), 324 (S), 430 (O), 585 (N), 695 (D)

Nilodin: See Lucanthone hydrochloride

Nursery
infection due to Proteus mirabilis in newborn [Becker], *355 (O)

O

Ornithine
metabolism of, in cerebro-oculo-renal syndrome [Schwartz et al.], 484 (N)

Osmosis
cell water and serum sodium: relation between [Pitcavage et al.], *276 (S)
RBC osmotic fragility and serum sodium: correlation between [Kim et al.], *281 (S)

Osteogenesis imperfecta
proline metabolism in [Summer et al.], 561 (N)

Ovary
granulosa-cell tumor of, with sexual precocity [Steiner & Hadawi], *380 (O)

Oxygen
effects of 15% oxygen in inspired air on gaseous metabolism of newborns [Oliver & Karlberg], 548 (N)

Oxygenator
small volume, pumpless, as lung substitute [Rashkind et al.], 527 (N)

P

Pancreatic cystic fibrosis: See Cystic fibrosis

Papua, Western
congenital defect in Melanesian populations suffering from hyperendemic goitrous cretinism [Gajdusek], 553 (N)

Paralysis
new variant of familial periodic [Klein], 482 (N)

Parathyroid glands
hypoplastic aberrant, in pharyngeal submucosa in infant [Yonis et al.], *307 (S)

Pediatrics
in America—impressions of visit (editorial) [Forfar], 1 (Jl)
procedure: study of relations between psychologic environment and child behavior [Kearsley et al.], *12 (Jl)

Peptides
synthesis of polypeptides under possible primitive earth conditions [Lowe & Rees], 504 (N)

Perfusion
closed partial, in puppies [Walker et al.], *269 (S)

Pericarditis
influenza virus [Hildebrancht et al.], *579 (N)

Pericardium
postpericardiotomy syndrome [Hammel & Lyons], *385 (O)

Personnel, hospital: See under Hospitals

Pharmacology
modification, pharmacological, of bilirubin conjugation in newborn [Catz & Yaffe], 516 (N)

Pharynx: See also Nasopharynx
hypoplastic aberrant parathyroid glands in pharyngeal submucosa in infant [Yonis et al.], *307 (S)

Phenobarbital
"H-reflexes" in normal infants: effect of, on these EIR's [Hodes & Gribetz], 490 (N)

Phenylalanine
intoxication: neurological abnormalities in phenylketonuria biochemically unrelated to [Allen], 487 (N)
serum, levels in newborn: detection and interpretation of elevated [Howell & LaDu], 559 (N)

Phenylketonuria
diagnosis: detection and interpretation of elevated serum phenylalanine levels in newborn [Howell & LaDu], 559 (N)
neurological abnormalities in, biochemically unrelated to phenylalanine intoxication [Allen], 487 (N)

Phonocardiography
hemodynamic-phonocardiographic correlations of fourth heart sound in aortic stenosis [Goldblatt et al.], 523 (N)

Phosphatases
erythrocyte acid phosphomonesterase deficiency in glucose-6-phosphate dehydrogenase deficiency [Oski et al.], 565 (N)

Phosphates
transport of oxidative phosphorylation in everted jejunal sac from rats with diarrhea [Maruno & Metcoff], 542 (N)

Phosphomonesterase: See Phosphatases

Phosphorylases
influence of age and pulmonary pathology on myocardial glycogen concentrations and, activity [Wittels et al.], 507 (N)

Pituitary gland
growth hormone in, of human fetus [Kaplan & Grumbach], 528 (N)
growth hormone: new bioassay for [Kogut & Kaplan], 527 (N)

Placenta
growth in tissue culture: teratogenic kidney antibody effect on [Brent & Ziegra], 541 (N)

Plasma
adrenocortical hormones in connective tissue diseases [Hughes et al.], *610 (D)

Pneumocystis carinii pneumonia: See Pneumonia, interstitial plasma cell

Pneumonia, interstitial plasma cell
pneumocystis carinii from human lungs under electron microscope [Bommer], *657 (D)

Pneumoperitoneum
postoperative and artificially induced [Schwartz & Eyal], *169 (Ag)

Poisons and poisoning
phenylalanine intoxication: neurological abnormalities in phenylketonuria biochemically unrelated to [Allen], 487 (N)
sulfadimethoxine (Madribon): fatal reaction to [Jarkowski & Martmer], *669 (D)

Poliomyelitis
antipoliovirus factors in human milk different from neutralizing or retarding antibody [Hodes et al.], 457 (N)
poliovirus, attenuated: influence of age upon response of newborns to [Warren et al.], 542 (N)
vaccine: Sabin Type I (LSc2ab) oral [Lepow et al.], *67 (Jl)

Polypeptides: See Peptides

POSTGRADUATE EDUCATION
American Academy of Pediatrics postgraduate course at University of Arkansas, 695 (D)
American Academy of Pediatrics: postgraduate course on renal diseases, 208 (Ag)
American Association of Poison Control Centers: fifth annual meeting, Nov. 1962, Chicago, 100 (Jl)
Atlantic City Clinical Congress of American College of Surgeons: postgraduate course, 208 (Ag)
Baylor University College of Medicine, Department of Pediatrics, and Texas State Department of Health, Division of Maternal and Child Health: postgraduate symposium, 325 (S)
Children's Memorial Hospital of Los Angeles: traineeship in endocrinology and metabolism, 431 (O)
Emory University School of Medicine, Department of Pediatrics: course on cardiology for pediatrician, 432 (O)
European Congress of Child Psychiatry, second: Rome, May-June 1963, 100 (Jl)
Johns Hopkins University School of Medicine: traineeships in pediatric research, 324 (S)
Los Angeles Pediatric Society: nineteenth Brennemann Lecture Series, 433 (O)
Memorial Sloan-Kettering Cancer Center, Pediatric Department: residency in pediatric oncology, 433 (O)
Midwest Society for Pediatric Research: annual meeting, Cincinnati, Oct., 1962, 325 (S)
National Institute of Arthritis and Metabolic Diseases: juvenile rheumatoid arthritis study, 100 (Jl)
National Institutes of Health: clinical

POSTGRADUATE EDUCATION—continued
study center study of glycogen storage disease, 432 (O)
National Jewish Hospital at Denver: residency training appointments in pediatric chest medicine, 585 (N)
New York Hospital-Cornell Medical Center: institute for care of prematures, 206 (Ag)
Roger William General Hospital: symposium on recent clinical advances in pediatrics, 325 (S)
Temple University and University of Pennsylvania: postgraduate course in allergy, 695 (D)
Tulane University: practical medical genetics postgraduate week, 695 (D)
University of California Medical Center Department of Pediatries: course on infectious diseases in children, 326 (S)
University of Colorado Medical Center, Department of Pediatrics: training research fellowships, 206 (Ag)
University of Kentucky Medical Center Department of Pediatrics, and Kentucky Medical Association: postgraduate course, 100 (Jl)
University of Minnesota, Department of Continuation Medical Education: course in liver disease in children, 324 (S)
University of Minnesota: postgraduate course in pediatrics, 206 (Ag)
University of Oklahoma School of Medicine, Children's Memorial Hospital: infectious disease training program, 324 (S)
University of Oklahoma School of Medicine, Children's Memorial Hospital: traineeships in pediatric neurology, 431 (O)
University of Southern California, Children's Hospital of Los Angeles: training in pediatric hematology, 324 (S)
University of Southern California Medical School, Department of Psychiatry: training in child psychiatry, 208 (Ag)
University of Texas Medical Center, Department of Pediatrics: fellowship in renology and metabolism, 432 (O)
University of Texas Medical School Department of Pediatrics: postgraduate course in pediatrics, 695 (D)
University of Wisconsin Department of Pediatrics: postgraduate seminar in renal diseases in childhood, 695 (D)
Yale University, Child Study Center: training program in child development and psychological aspects of pediatrics, 326 (S)
Yale University, Department of Pediatrics: training program in developmental biochemical genetics, 208 (Ag)

Precipitins
identification of group A streptococci: Lancefield precipitin method [Streamer et al.], *157 (Ag)

Premature infants
gamma globulin administration effect on morbidity from infection in, during first year [Amer et al.], 492 (N)
nonthermal effect of atmospheric humidity on survival of [Silverman et al.], 477 (N)
prolonged use of oral neomycin in [Buetow et al.], *252 (S)
respiratory distress syndrome in [Butterfield et al.], *230 (S)

PROGRESS IN PEDIATRICS
chemical mediators of acute allergic reaction [Logan], *185 (Ag)
further observations on newborn scoring system [Apgar & James], *419 (O)
treatment of acute rheumatic fever [Markowitz & Kuttner], *313 (S)
viruses and cancer [McAllister & Goodheart], *87 (Jl)

Proline
metabolism in osteogenesis imperfecta [Summer et al.], 561 (N)
urinary hydroxyproline excretion and growth [Fink et al.], 562 (N)

Protein
dietary, effect: hepatolipohyperplasia in weaning period [Hartroft], 551 (N)
effects of protein content of diet on renal water requirements [Drescher et al.], *366 (O)
synthesis: effects of adrenal cortex [Kaplan & Shimizu], 545 (N)

Proteus
mirabilis: infection due to, in newborn nursery [Becker], *355 (O)

Protoporphyria
erythropoietic [Porter & Lowe], 537 (N)

Pseudohermaphroditism: See Hermaphroditism

Psychology
environment, psychologic, and child behavior: study of relations between [Kearsley et al.], *12 (Jl)
"mutual respect" approach to child guidance [Missildine], *116 (Ag)

Pulmonary veins
infradiaphragmatic anomalous pulmonary venous connection [Ainger], *662 (D)
pulmonary venous admixture component in patients with large volume left-to-right communications [Talner et al.], 524 (N)

Pyelonephritis
in infants and children [Neumann & Pryles], *215 (S)

R

Radioactivity
5-iododesoxyuridine incorporation effect into deoxyribonucleic acid: hydrocortisone effect on [Schafer & Gitlin], 545 (N)
sulfation factor: new bioassay for growth hormone [Kogut & Kaplan], 527 (N)

Radioisotopes
activation analysis of stable isotopes as biological tracers [Lowman & Krivit], 544 (N)

Reflex
"H-reflexes" in normal infants [Hodes & Gribetz], 490 (N)

Respiration
chemoreceptor sensitivity to inspired carbon dioxide in newborn infants [Avery et al.], 518 (N)
chymotrypsin-like enzyme in respiratory secretions of cystic fibrosis [Lieberman & Kurnick], 526 (N)
environmental temperature and 15% oxygen effect on inspired air on gaseous metabolism of newborns [Oliver & Karlberg], 548 (N)
relationships of pO_2,pCO_2, and pH to onset of breathing [Harned et al.], 517 (N)
right-to-left shunt and acid-base balance in newborn infants with respiratory distress [Prod'hom et al.], 465 (N)

Respiratory tract infections
allergy role in viral [Freeman & Todd], *330 (O)
association of Coxsackie B 5 virus with minor, [Vargosko et al.], 539 (N)

Rheumatic fever
immunoglobulin levels in [Hong et al.], 541 (N)
treatment of acute [Markowitz & Kuttner], *313 (S)

Ribonucleic acid
and sequence of differentiation in embryonic cells [Gluck & Kulovich], 549 (N)
unusual components in RNA preparations of leukemic white cells [Karon et al.], 536 (N)

Rickets
refractory: results of calcium infusion and renal biopsy studies in [Nigrin et al.], 478 (N)

RNA: See Ribonucleic acid

Roentgen rays
"football sign" in neonatal perforated viscus [Miller], 311 (S)
lymphangiography in children [Altman et al.], *355 (O)

S

Salts
effect of aldosterone and various steroids in total body electroyte of mice receiving saline [Cheek et al.], 528 (N)

Schilder's disease
clinical considerations in [Zeman & Whieldon], *635 (D)

Schistosoma
masoni infection in children: treatment with lucanthone hydrochloride [Einhorn et al.], *30 (Jl)

Schmorl lesion
in jaundiced infected infants [Perrin & Landing], 551 (N)

Sclerosis, diffuse
clinical considerations in "Schilder's disease" [Zeman & Whieldon], *635 (D)

Scoring system, newborn: See Apgar score

Seminar: University of Colorado Medical Center: See University of Colorado

Septal defects: See under Heart

Septicemia
adrenal hemorrhage, septicemic [Margaretten et al.], 521 (N)
urinary tract infections and, due to Escherichiacoli in male infants [Kenny et al.], 461 (N)

Serine
formation of: turnover rate of glycine, pool size and [Nyhan & Childs], 509 (N)

Serology
response, serologic, to fifth injection of Salk vaccine [Moffet & Cramblett], 397 (O)

Sex disorders
apparent female infants with hernias and testes [Gans & Rubin], *82 (Jl)
male pseudohermaphroditism and chromosomal mosaicism [Warkany et al.], *172 (Ag)

Sexual precocity
granulosa-cell tumor of ovary with [Steiner & Hadawi], *380 (O)

Skeleton
developing, growth inhibition due to tetracycline deposition in bone [Cohlan et al.], 480 (N)

Skin
fatal reaction to sulfadimethoxine: case showing toxic epidermal necrolysis [Jarkowski & Martmer], *669 (D)

Sleep
"H-reflexes" in normal infants: effect of, on these EIR's [Hodes & Gribetz], 490 (N)

Society for Pediatric Research
new officers and members, 585 (N)

Society for Pediatric Research—continued
presidental address, 32nd annual meeting: long view [Robbins], *499 (N)
transactions, 32nd annual meeting: abstracts, 504-578 (N)

Sodium
serum: correlation between RBC osmotic fragility and [Kim et al.], *281 (S)
serum: relation between cell water and [Pitcavage et al.], *276 (S)
transport in inner medulla of kidney [Kean et al.], 544 (N)

Spinal cord
diastematomyelia [Arcomano et al.], *393 (O)
nontuberculous spinal epidural abscess: in 5-week-old infant [Miller & Hesch], *269 (S)

Staphylococcus
aureus: nasopharyngeal carriers of [Cooper et al.], *53 (Jl)
disease, staphyloccal: serum antibodies in [Quie], 539 (N)
extract, staphyloccal: early enhanced resistance to bacterial and viral infections after injection of [Forman et al.], 460 (N)
phage type staphylococci as measure of identity: validity of [Sprunt & Alexander], 459 (N)
transmission of, between newborns [Mortimer et al.], *289 (S)
transmission routes of staphylococci between newborns [Mortimer et al.], 540 (N)

Steroids
effect of various, on total body electrolyte of young mice receiving saline loads [Cheek et al], 528 (N)
substrates of steroid dehydrogenases [Sidbury et al.], 530 (N)

Streptococci
identification of group A [Streamer et al.], *157 (Ag)

SU 4885: See Methopyrapone

Sucrose
sucrosurea in relation to gastrointestinal disease [Gryboski et al.], 543 (N)

Sulfadimethoxine
fatal reaction to, (Madribon): case showing toxic epidermal necrolysis and leukopenia [Jarkowski & Martmer], *669 (D)

Sulfates
factor, sulfation: new bioassay for growth hormone [Kogut & Kaplan], 527 (N)

Sulfatides
lipidosis, sulfatide, in childhood [Hagberg et al.], *644 (D)

Surgery
postoperative and artificially induced

Surgery—continued
pneumoperitoneum [Schwartz & Eyal], *169 (Ag)

Survival
nonthermal effect of atmospheric humidity on, of premature infants [Silverman et al.], 477 (N)

Sweat
composition of mucoproteins isolated from, of patients with cystic fibrosis of pancreas [Pallavicini et al.], 545 (N)

Sympathiomimetics
use of isoproterenol in evaluation of congenital cardiac defects [Moss & Duffie], 525 (N)

T

Tail
case of human [Lundberg & Parsons], *72 (Jl)

Television
tape recording of fluoroscopic image [Girdany], 497 (N)
viewing and convulsions [Bower et al.], 515 (N)

Temperature
environmental temperature and 15% oxygen effect on inspired air in newborns [Oliver & Karlberg], 548 (N)

Teratogenic agents
evaluation of, by means of uterine vascular clamping techniques [Brent et al.], 464 (N)

Testes
apparent female infants with hernias and [Gans & Rubin], *82 (Jl)

Tetracycline
growth inhibition of developing skeleton due to, deposition in bone [Cohlan et al.], 480 (N)

Thalidomide
lesson in remote effects of drugs (editorial) [Taussig], 111 (Ag)

Thrombopenia
syndrome of hemolytic anemia, uremia, and [Rosenthal et al.], 473 (N)

Thyroid gland
hyperactivity: neonatal thyroidal [Fisher et al.], 529 (N)
lymphocytic thyroiditis treatment with desiccated [Leboeuf et al.], 531 (N)
thyrocytotoxic factor and other antithyroid antibodies in mothers of cretins [Chandler et al.], 514 (N)

Thyroiditis
lymphocytic, treatment with desiccated thyroid [Leboeuf et al.], 531 (N)

Tissues
brain homogenate: utilization of ace-

Tissues—continued
toacetate by [Renuart & Sidbury], 506 (N)
culture: Eaton's agent studies in [Clyde & Denny], 558 (N)
culture: teratogenic kidney antibody effect on placenta growth in [Brent & Ziegra], 541 (N)
digoxin concentration: extracorporeal circulation effect upon [Hernandez et al.], 469 (N)

Tracers: See Radioisotopes

Tryptophan
familial hypercalcemia of infancy associated with abnormal, metabolism [Michael et al.], 510 (N)

Tuberculin reactions
unclassified mycobacteria: cause of nonspecific? [Mellman & Barness], *21 (Jl)

Tumor
granulosa-cell, of ovary with sexual precocity [Steiner & Hadawi], *380 (O)

U

University of Colorado
seminar: lipid storage disorders of central nervous system [Leistyna],*680 (D)
seminar: metabolic defects associated with mental retardation [Garell], *401 (O)

Uremia
syndrome of hemolytic anemia, thrombocytopenia and [Rosenthal et al.], 473 (N)

Urinary tract infections
septicemia and, due to Escherichia coli in male infants [Kenny et al.], 461 (N)

Urine
aldosterone, urine, effect on total body electrolyte of mice receiving saline loads [Cheek et al.], 528 (N)
amino acids in: rapid quantitative measurement of [Mabry & Todd], 550 (N)
branched-chain amino-aciduria and ketoaciduria: mental retardation in monkeys [Waisman et al.], 488 (N)
cytomegaloviruses in, of children with hepatomegaly and abnormal liver functions tests [Hamshaw & Simon], 555 (N)
hydroxyproline excretion, urinary, and growth [Fink et al.], 562 (N)
lactosuria and sucrosuria in relation to gastrointestinal disease [Gryboski et al.], 543 (N)

Uterus
abdominal surgery, intrauterine, in rabbit fetus [Blanc & Silver], 548 (N)
evaluation of teratogenic agents by means of uterine vascular clamping technique [Brent et al.], 464 (N)

V

Vaccines
Sabin Type I (LSc2ab) oral poliomyelitis: effect of dose upon response of newborn infants [Lepow et al.], *67 (Jl)
Salk vaccine: serologic response to fifth injection of [Moffet & Cramblett], 397 (O)

Varicella: See Chickenpox

Ventriculography
retrograde left, in study of ventricular septal defects [Steinfeld et al.], 525 (N)

Virus diseases
cytomegalic inclusion disease in children with leukemia or lymphosarcoma [Gottman & Beatty], *180 (Ag)
cytomegaloviruses in urine of children with hepatomegaly and abnormal liver function tests [Hamshaw & Simon], 555 (N)

Viruses
and cancer [McAllister & Goodheart], *87 (Jl)
antipoliovirus factors in human milk different from neutralizing or retarding antibody [Hodes et al.], 457 (N)
Coxsackie B 5, association with minor respiratory tract illness [Vargosko et al.], 539 (N)
early enhanced resistance to viral infections after injection of staphylococcal extract [Florman et al.], 460 (N)
influenza, pericariditis [Hildebrancht et al. , *579 (N)
polioviruses: influence of age upon response of newborn, to attenuated [Warren et al.], 542 (N)
respiratory tract infections: role of allergy in viral [Freeman & Todd], *330 (O)

W

Waring Blendor syndrome
[Sigler et al.], 470 (N)

Water
excretion in nephrogenic diabetes insipidus: unidentified factor controlling [Holliday & Harrah], 512 (N)

Water-electrolyte balance
relation between cell water and serum sodium [Pitcavage et al.], *276 (O)
water balance in infants during water deprivation [Drescher et al.], *366 (O)

Weaning
experimental hepatolipohyperplasia in period of [Hartroft], 551 (N)
